

INSTRUCTIONS FOR USE

1. Wash the mould before the first use.
2. Slightly grease inside surface with oil, butter or margarine before baking.
3. Do not use on a flame or other direct heat source, including stove tops.
4. Do not put the product in an oven pre-heated directly from the freezer (wait until it is at room temperature or warm it up with the oven).
5. Temperature: from -18°C to +250°C.
6. Allow cake to cool down a little before removing from the mould.
