

Guardini®

MADE in ITALY

XBake

INSTRUCTIONS FOR USE

1. Wash the mould before the first use.
2. Grease inside surface with oil, butter or margarine before baking.
3. Allow cake to cool down a little before removing from the mould.
4. Do not use on a flame or other direct heat source, including stove tops.
5. Use only in traditional ovens (no microwave).
6. Please do not use sharp objects or others metal tools which could damage the baking pan surface.
7. Please do not exceed 230°C.
8. For the cleaning of the mould (after each use), we recommend hand washing with dish soap and it is recommended to dry the mould immediately after washing.

Do not use the empty mould in the oven, because it may damage, compromising its quality.

TECHNICAL DATA

Body metal	Hi-Top steel
Internal coating	Non-stick
External colour	blue
Internal colour	grey

BENEFIT LINE

An innovative non-stick coating PTFE and PFAS free and reinforced with ceramic particles. An important step towards a more sustainable environment.

The steel used for this baking mould has been sourced with an XCarb® green steel certificate. It represents significant CO₂ reductions in steel production processes. XCarb® is a trademark registered by ArcelorMittal symbolising its path towards carbon neutral steel.

PLUS LINE

Temperature

Non-stick

Non-stick layers
